-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3641

1. Applicant's election with traverse of species B (figs. 4-5) in the reply filed on 1/26/2006 is acknowledged.

Claims 1-6, 8-12, and 16-22 read on the elected species and an action on these claims follows. Claim 7 is withdrawn from consideration as being directed to a non-elected species.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson (338).

Wilson (338) discloses a portable convertible blast shield comprising:

- | | |
|--|------------|
| a) at least 2 telescoping cylindrical rings; | 16, 31 |
| b) a telescopically-collapsed configuration; | see fig. 3 |
| c) a telescopically-extended configuration; | see fig. 4 |
| d) means for releaseably securing; and | see fig. 7 |
| e) wheels attached to the outer ring. | see fig. 2 |

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2-3 and 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wilson (338) in view of Tabor.

Art Unit: 3641

Wilson (338) applies as previously recited. However, undisclosed is an armor material that is comprised of a composite fiber and matrix material. Tabor teaches an armor material that is comprised of a composite fiber and matrix material (col. 4, lines 8-28). Applicant is substituting one armor material for another in an analogous art setting. It would have been obvious to a person of ordinary skill in this art at the time of the invention to apply the teachings of Tabor to the Wilson shield and have a shield with a different or particular type of armor material.

6. Claims 1, 5-6, and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Maggio (265).

Maggio (265) discloses a portable convertible blast shield comprising:

- | | |
|--|---------------------|
| a) at least 2 telescoping cylindrical rings; | 12, 14 |
| b) a telescopically-collapsed configuration; | see fig. 2 |
| c) a telescopically-extended configuration; | see fig. 1 |
| d) means for releaseably securing; | 36 |
| e) handles; and | 26, 34 |
| f) blast effect inhibiting material. | col. 1, lines 65-58 |

7. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 16-21 are allowed.

9. Applicant's arguments with respect to claims 1-3, 5-6, 8-12, and 22 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3641

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. Johnson whose telephone number is 571-272-6877 and whose e-mail address is (Stephen.Johnson@uspto.gov). The examiner can normally be reached on Tuesday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Carone can be reached on 571-272-6873. The Central FAX phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 800-786-9199.
